

# **New Research : Quality of life in children with a genetically caused epilepsy disorder**

Curtin University Human Research Ethics Committee (HREC) has approved this study (HRE2020-0687). Researchers at the Telethon Kids Institute would like to talk with parents of children with a genetically caused epilepsy disorder. We wish to find out what challenges or helps quality of life. Findings will help researchers better determine how the lives of these children and their families can be improved. The interview will be approximately an hour and conducted over the phone or online.

---

## **Who can take part?**

Any parent of a child aged 2 to 18 years old with genetically caused epilepsy disorder.
